

EBRAHIM HASHISH

FULL-STACK SOFTWARE ENGINEER (MERN)

Cairo, Egypt | +201060899732 | ebrahimkordy0@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Self-driven Full-Stack Engineer (MERN) who takes ownership of messy, unmaintained codebases and turns them into clean, scalable systems — end to end, with no team to fall back on. Hands-on experience architecting multi-tenant SaaS platforms with a focus on security, data isolation, and maintainability.

EXPERIENCE

Independent Full-Stack Developer

01/2024 – Present

Remote / Cairo, Egypt

- Own the full development lifecycle for client projects — architecture, backend, frontend, and deployment — with no team to fall back on
- Turn unmaintainable legacy code into modular, production-ready systems using MVC and clean architecture principles
- Build secure, JWT-authenticated APIs and multi-tenant data models from scratch
- Modernize legacy codebases by applying best practices in code organization, reducing technical debt

PROJECTS

LMS Multi-Tenant SaaS Platform

02/2026 – Present (Under Active Development)

- Architecting a multi-tenant SaaS platform from scratch, designing tenant data isolation at the database and application layers to prevent cross-tenant data leakage
- Implementing JWT-based authentication with Redis session caching for scalable access control
- Integrating real-time features (Socket.IO, Zoom API) and payment processing (Stripe)

Tech: Node.js, Express, Next.js, MongoDB, Redis, Socket.IO

Soccer Street — Codebase Architecture Refactor

01/2026 – 02/2026

- Took on a real-world client project involving a monolithic, unmaintained codebase (4,500+ line single-file backend, 1,500+ line frontend files) and restructured it into a modular MVC architecture
- Applied independent problem-solving to plan and execute the refactor under real client constraints

Tech: React, Node.js, Express, MongoDB, JWT

SKILLS

JavaScript, TypeScript, React, Next.js, Node.js, Express.js, NestJS, MongoDB, PostgreSQL, Redis, Socket.IO, REST APIs, JWT, Docker, Git, GitHub, Tailwind CSS, Stripe, Vercel, Postman, MVC, Modular Architecture

TRAINING / COURSES

Full-Stack Web Development Diplomas — React.js, Node.js

EDUCATION

Al-Azhar University — Bachelor of Islamic Studies, Egypt

LANGUAGES

Arabic (Native) | English (Advanced)
